Tour Operator-Chile

### **Day 01 Easter Island**

Reception with flower necklace and transfer to the Hotel.  
Accommodation at the Hotel in Easter Island.

### **Day 02 Easter Island - Half Day Excursion Orongo Ceremonial Village and Rano Kau Volcano**

Breakfast. We start this tour in the morning towards the Vinapu sector, an archaeological site which is characterized by its large basalt slabs carefully made to fit like Inca constructions of Cuzco. We will also ascend to the Rano Kau Volcano, a place where there is a large lagoon, with small islands of totora and abundant vegetation and micro fauna. At the top of the volcano we find the Orongo ceremonial village, where the rite of the bird man was performed, which designated who would be with the king the spiritual and political leader for a period of one year. This sacred character with a shrunken man's body and large bird's beak is sculpted in a large number of engraved stones. This area has several houses built with slate stone with a spectacular view of the cliff and in front of the three islets of Motu Iti, Motu Nui and Motu Kao Kao, where the competitors had to arrive: descending the dangerous cliff, swimming on totora floats, looking for the egg and returning to make the whole journey back. A real odyssey that we can only understand by being in this impressive place.

As we will be in a high area of the island, and close to the village, we can see the dimensions of the only populated area of Rapa Nui, the length of its landing strip, and how extensive the island is from the viewpoint towards Hanga Roa, back to your Hotel.

In the afternoon we will visit the Center of the 7 Explorers Ahu Akivi, it is one of the few platforms where the Moais seem to look towards the sea, with 7 Moais in the present it is said that they represent the 7 explorers sent by King Hotu to Matu`a before his colonizing journey. After this visit we will continue to Puna Pau, a small scoria crater in which the Pukao, hats or crowns of the Moai were made. Since we no longer visit the Te Pahu cave due to the bad state of the road (we used to pass over the lava cavities and that is now in danger of collapse), and we will visit a very different platform from the others on the island, because it is a single Moai standing, but with the particularity this has 20 fingers: Ahu Huri a Urenga. It is also perfectly aligned to the winter solstice, and it is at this point where knowledgeable people gather at the right moment. Accommodation at Hotel in Easter Island.

**Day 03 Easter Island – Full day excursion to Anakena Beach, visiting Rano Raraku and Ahu Tongariki**  
Breakfast. Starting the tour from your hotel in the town of Hanga Roa, the tour will take you to the south-east

and northeast coast of the island to visit the first platform called Ahu Akahanga, made up of 4 platforms, 12 Moai, 8 Pukao. From there it is possible to appreciate one of the best preserved towns on the island.

Continuing towards Rano Raraku volcanic crater formed from consolidated volcanic ash, Rano Raraku is a visual record of moai design vocabulary and technological innovation, where 397 moai remain. "Lunch in a picnic area on the slopes of this volcano. We continue with the magnificent platform called Ahu tongariki, the most amazing ahu on the island, with 15 huge Moais. We continue on our way to Ahu Te Pito Kura, it has the largest statue erected in an Ahu, the Moai PARO of 10 meters and 85 tons with a PUKAO of 11.5 tons. It is no longer standing, but we can see its large size despite being split into three parts. It is believed that it was the last statue to be demolished around 1840. Next to the AHU is a large spherical stone that is identified with the navel of the world (TE PITO O TE HENUA), which according to legend was brought by Hotu Matua 'a in your boat. And as the last point to visit, we finally arrive at Anakena beach with its white sands and palm trees in the background. In this area, in addition to the wonder of the water, there are important archaeological remains due to their state of conservation, such as the Ahu Nau Nau platform. It has 5 Moai with Pukao and 2 broken ones. The back of the Moai and some stones on the back wall have petroglyphs. During the excavations, an extraordinary white coral eye with a red slag pupil was found, it is exhibited in the island's museum.

We will stay in this great place and to enjoy the benefits of a beautiful place. In the afternoon, return to your Hotel. Accommodation at the Hotel in Easter Island.

## Day 04 Easter Island - Santiago de Chile
