Without a doubt, Concha y Toro has achieved worldwide recognition and it's not for nothing. It has strived to be at the forefront of wine production. On this 4-hour tour we will uncover all the secrets of this century-old vineyard on the very premises where it all started. This vineyard dates back to 1883 and was founded by Don Melchor Concha y Toro. He was in charge of planting the first vines brought from Bordeaux in France and he chose the Pirque estate to begin his production. The quality of the wines made them a target for thieves, which contributed to the emergence of the legend of the "Casillero del Diablo". You will also have the opportunity to taste some of its labels, walk through its gardens and see the outside of the old Concha y Toro family
